About HospitalLink™

HospitalLink is an empowering tool that offers Hospitals a digital address equipped with digital tools. These digital tools enables Hospitals interact with patients in various forms including, pre-booking of appointments, as well as payment for various Hospital related fees.

One of the most important requirement of any Hospital, is a reliable, compatible, and secure communication and interaction channel. Hence, it has become a necessity for all Hospitals to be in contact with patients at all times. This is what HospitalLink offers.

To register, log on to www.paylink.today/hospitallink, sign up and obtain your unique link.

CorporateLink is powered by PaySwitch. PaySwitch is a payment processing company in Ghana. It operates with world class standard technology platforms and professionals and has so far completed numerous transactions that are backed by fraud prevention solutions. PaySwitch is certified under the Data Protection Act, Act 2012 (Act843), ISO 27001 Certified and PCI DSS Compliant. PaySwitch operates under the new Payment Systems and Service Act, 2019 (Act 987).

Benefits of HospitalLink™

- Patients can book hospital appointments
- Remote Hospital/patient interactions
- Payments for various Hospital related services
- Enables Hospitals plan in advance

Product Offering

1. Branded App (Android & iOS)

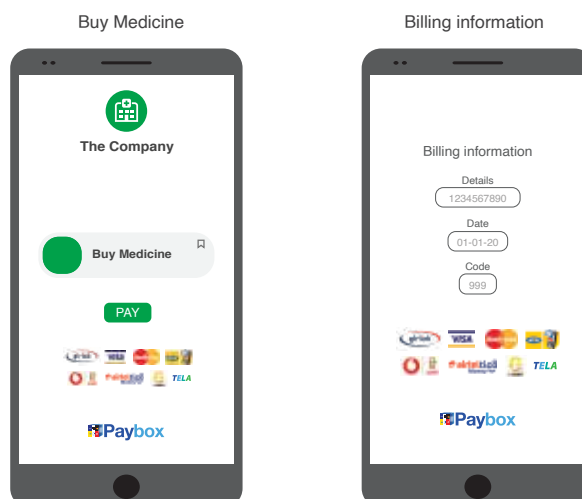

- i. Enables payments of fees & donations
- ii. Meeting reservations and communication
- iii. Notification & announcement

2. Branded Payment Systems

i. PayBox (payment enabler for websites)

PayBox allows your hospital to accept payment for products and services online. With a single integration, the company can accept payments from cards to mobile money and access a suite of functionalities.

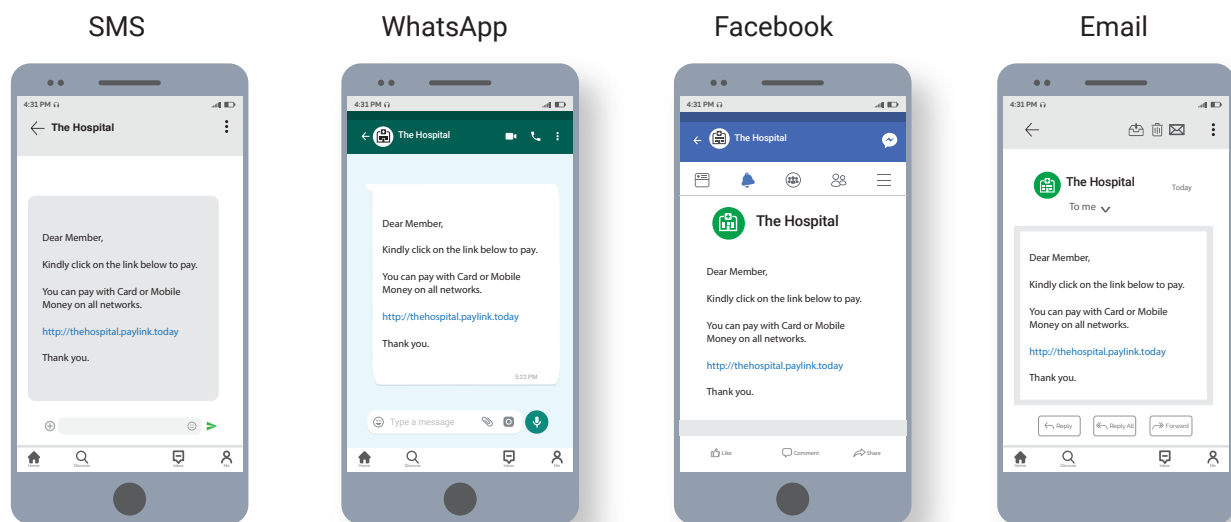

ii. PayLink (digital invoicing and enables off app/web payments)

PayLink enables the hospital to receive payments through a payment link. The hospital branded payment link can be shared via SMS, emails, social media pages or on any other platform. The link can also be embedded into the hospital's app/website.

Payments can be made through card transaction or mobile money. PayLink accepts all payment types in Ghana and around the world, including card and mobile money on all networks. Payments are made directly into the hospitals's bank account or mobile money wallet.

How To Share (examples)

iii. PayQR (enables online and offline visual payments)

PayQR is a payment solution designed to enable your hospital to receive payment through a QR code. It is best used when members are physically present at the hospital's premises.

3. Analytic Solutions

i. Various reports

Customized reports can be generated in multiple software programs such as Excel, PDF etc.

Example - Dashboard.

Example - Settlement report.

ii. 360 Realtime monitoring of payments

The hospital can monitor payments in real time.

Example - Transactions (Fees).

4. Anti-Fraud Solution

Our anti-fraud solution is applied at the backend for all payment systems offerings. We provide robust fraud prevention on all our payment systems and detect and prevent the full range of attacks.

About PaySwitch

PaySwitch is a payment processing company that provides alternative banking solutions mainly to banks and financial institutions. We have also expanded our reach to organisations, businesses and individuals across the globe.

PaySwitch provides integrated payment solutions that facilitate the circulation of money as well as the exchange of value between individuals (P2P); individuals and organisations (C2B); organisations and individuals (B2C); and between organisations (B2B) on a timely and consistent basis. Currently, our target market includes commercial banks, non- banking financial institutions, telecommunication companies and other organisations within the payment space in Ghana and West Africa.

PaySwitch offers itself as a powerful payment enabler for a wide spectrum of users, from startups to large organisations. Under its incubator payments program, startups can enjoy the flexibility of our systems and wide array of payments through a very simple programming interface without the hassle of interacting with service providers and committing to upfront fees they cannot afford. Special rates can also be negotiated under this program.

PaySwitch is a payment processing company in Ghana. It operates with world class standard technology platforms and professionals and has so far completed numerous transactions that are backed by fraud prevention solutions. PaySwitch is certified under the Data Protection Act, Act 2012 (Act843), ISO 27001 Certified and PCI DSS Compliant. PaySwitch operates under the new Payment Systems and Service Act, 2019 (Act 987).
